# TENNESSEE GENERAL ASSEMBLY FISCAL REVIEW COMMITTEE

## **FISCAL NOTE**

### **HB 9066**

October 27, 2021

**SUMMARY OF BILL:** Prohibits a person, private business, or governmental entity from requiring another individual to receive a COVID-19 vaccine that is allowed due to an emergency use authorization or is awaiting approval from the federal Food and Drug Administration.

Authorizes a person injured by a violation of the provisions of this legislation to bring civil action against the entity who required the vaccine.

#### **ESTIMATED FISCAL IMPACT:**

#### **NOT SIGNIFICANT**

#### Assumptions:

- The U.S. Supreme Court issued a ruling in February 20, 1905, *Jacobson v. Massachusetts*, upholding the right of states to compel vaccination.
- Each state decides which vaccines are required based on recommendations from the Centers for Disease Control and Prevention Advisory Committee on Immunization Practices (ACIP).
- Immunization or vaccination for COVID-19 is currently not required by any state or local governmental entity in Tennessee. Prohibiting any such future requirement will not result in a significant fiscal impact to the state or local government.
- The proposed legislation will not significantly impact any programs or policies of state or local governments or the number of caseloads in the court system; therefore, any fiscal impact is estimated to be not significant.
- If the proposed legislation prohibits a state or local entity or private business from following any future federal vaccination mandate, federal funding could be jeopardized.
